Parul® University
NAAC A++

BRIEF SUMMARY

I'm a pre-final year B.Tech student in Computer Science and Engineering, with skills in machine learning, data science, Python, SQL, Tableau, Flask, ReactJS, HTML, CSS and MS Excel. Interested in working with data to find useful insights and build simple solutions. Eager to learn and grow in the field of technology.

KEY EXPERTISE

Python   Machine Learning   Data Science   SQL   Data Analytics   Tableau   Flask   HTML   CSS   ReactJS   C++

EDUCATION

Parul University 2022 - 2026
B.Tech. - CSE - PIT | CGPA: **6.94 / 10**

National Infotech College 2022
12th | NATIONAL EXAMIWATIOKS BOARD | Percentage: **75.50 / 100**

Holy Land English Secondary School, Birginj 2020
10th | NATIONAL EXAMIWATIOKS BOARD | Percentage: **83.75 / 100**

PROJECTS

Audio Deepfake Detection 03 Apr, 2025 - 04 Apr, 2025
Mentor: 0

Key Skills: Machine Learning   Deep Learning   Flask   HTML   CSS   Python

Project Link: https://github.com/dasmrpmunna/Audio-Deepfake-Detection

 Audio Deepfake Detection using Deep Learning
This project is a real-time audio deepfake detection system built with TensorFlow and Flask. Users can upload .wav audio files via a simple web interface, and the model will predict whether the audio is real or fake using spectrogram-based deep learning features. Ideal for exploring deepfake forensics and audio classification tasks.

Predict Student Placement System 05 Mar, 2025 - 07 Mar, 2025
Mentor: 0

Key Skills: Python   Machine Learning   Flask   HTML   CSS

Project Link: https://github.com/dasmrpmunna/Placement-Prediction-System

Description: This project aims to predict student placement outcomes using machine learning. A Random Forest Classifier is trained on academic and skill-based features such as CGPA, 10th & 12th marks, certifications, soft skills, and extracurricular activities. The system is developed with a Flask-based backend, serving predictions through a user-friendly HTML and CSS frontend interface. Users can input student details via a web form, and the system instantly predicts whether the student is likely to get placed or not.

Fake Product Detection System 27 Jan, 2025 - 25 Feb, 2025
Mentor: Mrs. Shweta Gupta & Mr. Nishit Langaliya | **Team Size:** 4

Key Skills: Machine Learning   Python   Flask   ReactJS   Tailwind CSS   Axios   BeautifulSoup4

Project Link: https://github.com/dasmrpmunna/Fake-Product-Detection-System

- Built an AI-powered image slider that responds to hand gestures.
- Integrated OpenCV and MediaPipe for gesture recognition and PyQt for GUI.

Predict Crop Production 16 Feb, 2025 - 18 Feb, 2025
Mentor: 0

Key Skills: Python   Machine Learning   Flask   HTML   CSS

Project Link: https://github.com/dasmrpmunna/Predict-Crop-Production

Predict Crop Production is a Machine Learning project that helps farmers and agricultural experts determine the best crop to grow based on soil nutrients, temperature, humidity, pH, and rainfall. Using ML algorithms, it provides accurate predictions to optimize yield

and sustainability.

Library-Website   17 Aug, 2024 - 17 Sep, 2024
Mentor: 0

Key Skills: HTML   CSS   Javascript

Project Link: https://github.com/dasmrpmunna/Library-Website

This website is a fully responsive online library platform designed to offer users an extensive range of books and resources. The project aims to create an accessible and organized digital space where users can explore various books across different genres.

ASSESSMENTS / CERTIFICATIONS

Data Visualization using Python and Tableau,

Key Skills: Python   Tableau   Pandas   NumPy   Seaborn   Matplotlib

Completed a course on Data Visualization using Python and Tableau, gaining skills in creating visualizations, analyzing data, and building interactive dashboards."

SQL and Relational Databases 101

Key Skills: SQL   Relational Databases

Completed the "SQL and Relational Databases 101" course, learning the basics of SQL, relational database concepts, and writing queries to manage and retrieve data efficiently.

Data Analysis with Python

Key Skills: Python   Pandas   NumPy   Matplotlib

Completed the "Data Analysis with Python" course, learning to clean, analyze, and visualize data using Python libraries like Pandas, Numpy and Matplotlib.

PERSONAL INTERESTS / HOBBIES

- Reading
- Traveling
- Music
